Verify it yourself

Run the same scan live:
https://securityheaders.com/?q=https%3A%2F%2Ftuckerpaymentprocessing.com%2F&hide=on&followRedirects=on

Method: each scanner was run against the live site from a normal web browser on 2026-11-24. Grades, times (UTC) and check results are recorded exactly as shown on each scanner's result page; the 'Verify it yourself' links run the same scan again live. Scans run by Michael Cunningham with AI assistance (Claude).
